Educations:
Bachelor Of Science (Engineering),
4th semester.
Computer Science And Engineering.
University Of Chittagong.

Profile:

I am studying computer science and engineering at the University Of Chittagong. So, I am comfortable with competitive programming. And may easily adjust with any new programming language. I also completed many full stack applications. I have gathered some knowledge about Microsoft Word, Powerpoint and Excel.

Programming Skills:

- Competitive Programming. Solved 650+ problems in codeforces.
- Participated in 50+ contests on different platforms.
- Very comfortable in C++, C, Java.
- Also comfortable in HTML, CSS, JavaScript, SQL, MySQL, Express, NodeJS, MongoDB.
- Frameworks: Bootstrap, Tailwind CSS, Material UI, React.

Projects:

❖ **Laptopea**
- ➢ Front End Code link: Github and Live Site: Laptopea.
- ➢ Backend Code link: Github
- ➢ A full stack website.
- ➢ 3 different users possible Normal user, signed in user and admin.
- ➢ Email verification available.

❖ **Jumanji Park**
- ➢ Front End Code link: Github and Live Site: Jumanji
- ➢ Backend code link: Github
- ➢ Materials used for front end: React, React Router, Material UI, Firebase authentication, JavaScript.
- ➢ Materials used for backend: Express, MongoDB, JavaScript.

❖ **Epic HealthCare**
- ➢ Code Link: Github and Live Site: Epic HealthCare
- ➢ A Single Page Application
- ➢ Features: Context API, React Router, Bootstrap.
